Description

MONCY, AU CAULE Ste. BEUVE Circa 1830 An interesting early French 'St. Nicholas' longcase clock. An oak case with a well carved pediment depicting a basket of flowers. Two carved love birds at the centre of the glass pendulum aperture. A slim panelled trunk section and standing on bun feet. A convex enamel dial with brass hands. A twin weight driven mechanism of 3 day duration. These clocks are much rarer than the later 'Comptoise' clock. Moncy is listed in Tardy's 'Horologers Francais' book as working in Le Caule Sainte Beuve which is in the Haute- Normandy region of France in 1830. Height 7ft 7" / 231 cms
