Description

Quite magnificent and a really unusual find, this pair of horse hooves will probably have come from a military desk. Dating to around 1890, the pair of hooves have been beautifully mounted in brass, with superb detailing such as the hair. The handle of the chamberstick is in the form of a buckled belt. The desk bell is my favourite kind with the more unusual clapper to the side rather than the ones you ring from the top. The hinged clapper is pushed down on the exterior and released to give an authoritative ring. A fabulous pair in superb condition. The chamberstick measures 8" to include handle x 4 1/2" x 5 1/4" tall and the bell measures 6 1/4" x 4 7/8" x 7" tall. Item ID: 34641 FREE Worldwide Registered Airmail Directly From London, England
