**Sold**

**Item Reference: SA206206**

**Date of manufacture: 1930**

## Description

An imposing and possibly unique set of four pillars which have come out of a church by Robert "Mouseman" Thompson in 1932. The pillars/posts would of held maybe a tapestry or flags as they would of been connected to each other by a metal frame. These could be used in a staircase, pillars, table base etc.... or even used as it had been intended. The buyer will be delighted. Please view my other interesting items, many thanks.
