PAIR OF CANDELABRA TABLE LAMPS

Price

Sold**Item Reference: SA211273****Date of manufacture: 1910**

Description

Circa 1920 - 1940, this is a matching pair of table candelabra. Made of solid brass, there are four candle lights on each, held in position by decorative brass candle cups - see photo 1. The lights still have the original and unusual glass drops. There are several decorative branches coming up from the central column, each one holds an additional large glass drop. They measure approximately 36cm in height and 17cm at the widest point. The lamps have been rewired to UK specifications, fitted with an online switch, and the old damaged candle tubes have been replaced. Some of the drops had to have new replacement brass wires to keep them secure as the old ones were broken. The lamps could be polished with brass cleaner to highlight the details, but we have left them as they are because many of our customers prefer it. Postage and packing within the UK mainland only is included in the price, but we are happy to supply quotes for delivery elsewhere. Alternatively, they can be collected from Surrey.
