

SA213112

Antique Mahogany & Leather Desk Chair

Price

Sold**Item Reference: SA213112****Date of manufacture: 1910**

Description

Antique mahogany & leather desk armchair in lovely original condition. The green leather is still in good condition with lots of character. It's hand tacked & the internal upholstery feels fine. The frame has been revived to give it a nice original feel. There are many nice features on the frame, which has reeding, good carvings & turned reeded legs. Please check all the images to see these features. This chair is of small proportions & I would date it to around the 1910 period, but it's hard to be exact. It does have a kind of William IV look about it, but I don't think it's from that period. Width - 20.5", 52 cm Depth - 20.5", 52 cm Height - 29", 73 cm Seat height - 18", 46 cm PLEASE CHECK THE WEB SITE FOR MORE IMAGES & OTHER ITEMS
