Description

A wonderful pair of wooden candlesticks, always a winning combination, polished Oak and brass. Not to be confused with a simple pair of twists, these are the highly sought-after "open" twists, with two hand carved twists spiraling around each other. This is a slightly more unusual pair, with more unusual turning to the base and the base of the stick columns. The cast brass tops in the form of Scottish thistle form, protect the wood from hot wax drips, the brass re-polished to gleam. The pair do stand straight, when photographed as a pair, it often looks like one is leaning, but this is not the case. Dating to around 1900, they both remain in excellent condition, Taller than most measuring an impressive 14" tall with a base diameter of 5 1/4".
