**ARTS & CRAFTS STYLE
COPPER CHARGER
PROBABLY NEWLYN circa
1890**

Price

Sold**Item Reference: SA217993****Date of manufacture: 1890**

Description

Measuring approximately 16 inches (41 cm) in diameter, this ART & CRAFTS COPPER CHARGER with A stylised FISH in the centre, dates from circa 1890. Although not marked, the CHARGER is very similar in design to those from NEWLYN. As can be seen from the photograph, the FISH is well-formed and detailed and the whole CHARGER shows signs of hand crafted work. The back has a good patina. The condition is good. There are no holes or repairs. The rim is slightly misshapen in one place.
