

SA224215

Pair of Antique French Carved Walnut Armchairs

Price

Sold**Item Reference: SA224215****Date of manufacture: 1910**

Description

Good quality pair of antique walnut framed French armchairs, with crisp carvings all over. The frames are in excellent condition & sturdy too. They do need re-upholstering, because the fabric is a bit marked & quite lumpy on the seats. Normally we re-upholster armchairs, but I think you should be able to see their potential because the fabric is neutral, so this way I can keep the price down & you will be able to put on the fabric of your choice. I would date them to around the 1890-1910 period, but they may in fact be older. Please enlarge all the images to appreciate the wonderful carving all over. We can arrange re-upholstery for you at trade prices. Width - 28.5, 72 cm Depth - 21.5", 54 cm Height - 29.5", 75 cm Seat height - 15", 38 cm (although this will be altered when re-upholstered)
