LOVELY VICTORIAN COPPER COAL SCUTTLE C1880

Price

Sold**Item Reference: SA226990****Date of manufacture: 1880**

Description

This is a wonderful opportunity to own a genuine Victorian solid copper coal scuttle dating to around 1880. It really does stand out because of the fabulous so called 'helmet' shape and twist in the handle which is so typical of the Victorian era. It has been sympathetically restored with the brass and copper being bright and crisp yet retaining the patina you would expect from a piece 130 years old. It comes complete with its original coal scoop, as you can see it is worn but it seems such a shame to split the set. Delivery within mainland UK is included in the price. We have a wide range of fenders and companions sets which would compliment this beautifully as well as lighting, clocks and watches so please take a look at our current stock on our website.
