Description

This unusual ANTIQUE COPPER FLOOR STANDING WASTE BIN bears in the impressed mark BULPITT & SONS BIRMINGHAM 1904 on the front. The carrying handle drops down and the lid raises for access. With the handle down, the BIN measures approximately 11.75 inches (30 cm) square and 7 inches (17.75 cm) high. The condition is good with only minor dings to the copper. As you can see it makes a wonderful flower container or could be used for waste paper or outside a Hotel or Restaurant. For those who like to know, the roses are Diamond Jubilee (apricot) and Comte de Chambord.
