Description

A completely original early 20thC twelve arm chandelier, with beautiful large crystal drops and little glass beads along the framework. It has just been rewired for the UK market and fitted with replacement candle tubes. We think the glass candle cups were replaced 40/50 years ago, but the large, ornate glass drops, and beadwork are original. It measures approximately 127cm (50") in length and 81cm (32") in width. Can be viewed in the Berkshire area; or contact Lancaster Antiques for more information.
