C19th specimen marble-inlaid table top

Price

Sold**Item Reference: SA237174****Date of manufacture: 1860**

Description

C19th specimen marble-inlaid table top. Set in Derbyshire slate , symmetrically radiating stone specimens of tapering sizes. Probably made in Ashford ,which was a centre for the fashionable production of inlaid wares of this genre and where local craftsmen worked imported coloured marbles into the local polished black limestone , and inspired by the Florentine 'pietra dura' industries of Italy. . Dia 16" x Thickness 1 ". England c 1850
