

SA242538

A GWR Railway fusee dial clock.

Price

Sold

Item Reference: SA242538

Date of manufacture: 1900

Description

A genuine Railway clock. It bears the original GWR plaque no 3310 to the side and 12" dial British Rail Western. These were often overpainted after the takeover. An oak case with convex and concave mouldings. An 8-day duration fusee mechanism. The clock has been in the Bristol area for many years and is likely to be a local or South Wales station that it came from. Circa 1900. Width 1 Overall width 15" / 39 cms
