Description

Making an eye-catching display, this COLLECTION OF FIFTEEN VICTORIAN TIN JELLY AND ASPIC MOULDS date from around 1880. To give some idea of scale, the tallest MOULD (centre back) measures approximately 7 inches (17.5 cm) high and holds 3 pints. Some of the MOULDS have part-coppered surfaces. As you may expect there are some dents and signs of wear commensurate with age and use.
