Sold**Item Reference: SA255046****Date of manufacture: 1920**

Description

This is an exceptional example of a gents watch made by the premier Swiss maker Tavannes. This is an extremely rare model with a rectangular shaped case, very much of the Art Deco era. The case is just amazing with the 18ct yellow gold which is then the 18ct white gold, it has a cabochon sapphire winding crown which compliments this beautifully. The sides of the case have wonderful chasing or engraving which is always a sign of the highest quality as the attention to detail is superb. The silver coloured dial is unmarked, a new scratch resistant mineral glass has been fitted and the case professionally polished so it looks pristine. It has a 15 jewel adjusted to three positions movement which is of the highest quality and as you can see it is in fabulous condition. It looks as though the watch was rarely worn and is an extremely rare find indeed. The case measures 17mm x 33mm without the winding crown and because of the size it can easily be worn by either a lady or gentleman. The watch comes with a high quality wooden presentation box to keep it in perfect condition. It would certainly make a perfect birthday, anniversary or Christmas gift. As you would expect...
