

SA256909

A True Austrian Vienna Regulator

Price

Sold**Item Reference: SA256909****Date of manufacture: 1880**

Description

A bespoke Vienna regulator made in Salzburg, Austria. It is not to be confused with the later, mass-produced copies of these clocks made in their 1000's in Germany. A magnificent walnut case with the usual refinements one would associate with clocks from this region. A burr walnut inset panel to the quarter-veneered backboard. The fully glazed door is key lockable. The pillasters to the door are returned to the sides as opposed to the normal flush front finish of lower grade clocks. The 8 day, quality movement strikes on the half-hours and the hours and has just been fully overhauled by our BHI registered staff and carries our usual 12mth guarantee. The 7" white enamel dial is free from any cracks, chips or crazing and the brass weights and pendulum are in first class condition. An unusual white enamelled beat counter. Overall, an outstanding clock. Dimensions (max):

Height	60"	(152cm)	Width	17"	(44cm)	Depth	8"	(20cm)	NEW LOW PRICE!!!!
