Dimensions

Height = 50 cm (19.7")

Width = 30 cm (11.8")

Depth = 30 cm (11.8")

Description

Restoring this beautiful little chandelier and possibly converting it to electricity could be a great project for a DIY person and electrician. It dates from around the late 19th Century- early 20th Century and was made for candles with five candle cups held by scroll arms, and little cherubs around the centre playing musical instruments. It measures 30cm across and 50cm in length and it weighs 3.7 kgs, so is heavy and fairly solid. There are indications that someone has tried to wire it at some stage and some of the central column needs tightening, but we are selling it 'as is'. The pieces are all there and in good condition but in need of TLC. Postage and package within the UK mainland only, is included in the price. We will be happy to give quotes for delivery elsewhere, including overseas.

Internal Ref: 1236
