Sold**Item Reference: SA269096****Date of manufacture: 1920**

Description

This is an exceptional example of a gents watch made by the premier Swiss maker Buren. This is an extremely rare model with a barrel shaped case, very much of the Art Deco era. What makes this particular watch rare is the diamond cut starburst effect silver dial which is just amazing and really does stand out, a new scratch resistant mineral glass has been fitted and the case professionally polished so it looks pristine. It has a 15 jewel movement is in fabulous condition. It looks as though the watch was rarely worn and is an extremely rare find indeed. The case measures 24mm wide x 35mm long without the winding crown. The watch comes with a high quality wooden presentation box to keep it in perfect condition. As you would expect from Buren the watch is fully marked on the dial, movement and the case has a full set of continental hallmarks. There is an inscription of AL on the back of the case but obviously this is never seen when worn. It has a new premium grade black leather strap. The watch movement has just been fully serviced and is guaranteed to be a genuine Buren in all respects by Alan Williams FBHI. This watch has been fully and professionally over...
