

SA269311

A PAIR OF PAINTED STEEL AND GILDED WALL LIGHTS

Price

Sold**Item Reference: SA269311****Date of manufacture: 1900**

Description

This is a pair of extremely heavy and very unusual, fine quality painted steel and gilded wall lights dating from the early part of the 20th C, and possibly Italian. The photographs don't do them justice because the subtle colours aren't easy to show, but they are on view in the Berkshire area. They have been painted in a soft blue/green/grey with gilt highlights, the colours are probably more easily seen in photographs two onwards, and the candle holders and cups are gilded. The lights have been rewired for the UK market and come with the original lovely big crystal drops. Each light measures 66cm in length, 42cm in width and the depth from the wall to the front is 24cm and there is a wall fixing at the back of each. They are very heavy, for this reason collection or courier delivery would be best and we can obtain quotes for mainland UK. They are one of the most unusual and beautiful pair of wall lights we have had in stock in the past 20 years.
