Sold**Item Reference: SA270317****Date of manufacture: 1890**

Description

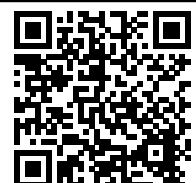

A truly stunning late 19th century walnut pedestal partners desk. Dating to around the 1890 this is the most solidly built desk I have bought in over 30 years of dealing in Antiques. The desk splits into 3 pieces for ease of transportation / delivery. Having its original black leather insert and brass handles, 9 drawers to the front side and 3 drawers to the rear the 6 others on the rear are dummy drawers, an extra parquetry topped slide on the right side. This desk is shown in top showroom condition having been through our workshops and been cleaned / polished yet it still retains a mellow antique patina. Height 30.3/4 inches, knee-hole height 23.3/4 inches, width 64 inches, depth 40 inches. This desk is being sold on behalf of a client and is not on view at merchant house, please call first if you would like to see it.
