Description

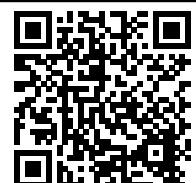

A wonderful pair of wooden candlesticks, always a winning combination, polished Oak and brass and the size is phenomenal, it has been many years since I have come by such a tall pair, towering 18". Not to be confused with a simple pair of twists, these are the highly sought-after "open" twists, with two hand carved twists spiraling around each other. The highly decorative cast brass drip trays are to protect the wood from hot wax drips, the brass re-polished to gleam. The pair do stand straight, when photographed as a pair, it often looks like one is leaning, but this is not the case. Dating to around 1900, they both remain in excellent condition, a mammoth 18" tall with a base diameter measuring 6 1/4".
