Description

A WW1 1915 silver gents trench watch. The watch has a hand-winding movement which is ticking away nicely and the time keeping is good to within around 3 - 4 minutes or so over a 24 hour period. The jewelled movement is stamped Swiss made. The watch measures 33 mm diameter excluding the winding crown and 40 mm high including the fixed wire lugs. The silver case has London import marks for 1915 with the importers mark G.S (George Stockwell). The case is in good condition with just light surface marks and mild denting to the back. The watch lens is plastic and is in nice condition with only the odd minor mark. The white enamel dial has faint hairline cracks and otherwise it is in nice condition. The watch has its original blued steel hands. A new black leather strap has been fitted. Price includes free worldwide postage.
