A wonderful and very useful Victorian glass ice bucket with silver plated fittings and a silver plated drainer that sits on a series of plinths inside the bucket. The drainer allows for water to drip through so that the ice isn't sitting in water. What makes this a rather special and more desirable piece is the presence of an English design registration diamond shaped lozenge having been incorporated into the glass at the bottom of the interior, the registration mark is for February 8th 1878.
