Description

This is a very fine and exquisite example of a ladies wristwatch made by the world renowned premier Swiss maker Omega. It has a platinum case surrounded by diamonds and then more diamonds to the the most beautifully designed lugs. As you would expect from Omega the diamonds are bright, crisp and evenly matched. The snake design bracelet is of solid 9ct white gold and has a three position clasp, the lugs are fully articulated and it just simply glides around the wrist. This watch was obviously bespoke made and originally would have had a black cordette strap, the 9ct gold bracelet was added later and is hallmarked for Birmingham 1953. It has approximately 1.5cts of diamonds. It fits a maximum wrist size of 6.75 inches but this can easily be reduced by any competent jeweller. The case measures 17mm not including the crown and the total length from each end of the lugs is 52mm. It is quite stunning, the dial has been fully restored so is in perfect condition. A new glass has been fitted and the watch and bracelet professionally cleaned and polished so it is absolutely pristine. It has a top grade 17 jewel manual wind movement - it is an absolute gem, sparklin...
