## Description

An antique Elgin full hunter pocket watch. The watch has a stem-winding movement, signed Elgin National Watch Company, and it is ticking away nicely and the time keeping is good to within around two minutes over 24 hours. The serial number on the movement is 11,937,347 which dates it back to 1905. The movement is protected by an inner dust cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and the condition is good with just general light surface marks. The front cover has been engraved with some very elaborate initials and also the year of 1922; quite often the cases were adorned when passed on to the next generation or given as a gift so it is usual for the date to be later than the manufacture date. The plastic lens is a later replacement; it is in good condition. The dial is signed W R Turk, Deal - the original retailer of the watch. Blued steel hands, subsidiary seconds dial and an outer minute track. FREE WORLDWIDE SHIPPING
