Description

A WW2 Omega cushion cased wrist watch. The watch has a 26.5 SOB hand-winding movement which is ticking away nicely and the time keeping is good to within around two minutes over 24 hours. The movement is signed Omega, Swiss, 15 Jewels and it has the serial number 9,057,732 which dates it back to the early 1940s. The watch measures 28.5mm wide excluding the winding crown and 28.5mm high excluding the lugs. The case was made for Omega by Dennison, the prolific English watch case maker. It has a chrome bezel and Dennisteel back. The winding crown is a later replacement. The lens is in good condition. The enamel dial is signed Omega, Swiss Made. Blued steel hands (at least one is a later replacement), subsidiary seconds dial and an outer minute track. There are hairline cracks to the dial. A new black leather strap has been fitted.
