Scottish mahogany long-case clock by J&A Muir Glasgow

Price

Sold**Item Reference: SA294837****Date of manufacture: 19th Century**

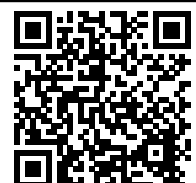

Description

Scottish mahogany long-case clock by J&A Muir Glasgow Here we have a very attractive example of a Scottish mahogany round dial long-case clock. The richness of the timber and the design are very pleasing to the eye. It has an 8-day movement. The white painted circular dial with subsidiary seconds and date dials. The case is made of superb mahogany with carved quarter columns to each side. The hood with applied carving of thistles and a carving to the top. A long central door that opens to reveal the pendulum and its driving weights. 219cms high 47cms wide 23cms deep
