Sold**Item Reference: SA295114****Date of manufacture: 1850**

Description

A beautiful Vienna Triple-weight, Grande Sonnerie Vienna wall clock that is in lovely condition. These clocks are often referred to as "blind man's clocks" as it is the only type of clock where one can detect the correct time on the quarter and half hours without seeing the clock. This is lovely example, having an understated case which contrasts beautifully with the clock face, weights and pendulum. The clock has just been fully overhauled by our BHI registered staff and carries our usual full parts and labour gaurantee. The two-piece enamelled dial is free from any cracks, chips or crazing. It carries the makers name "KARL KREUTZ. IN WIEN" (of Vienna). It has black Roman numerals and superbly cut hands. The three brass weights and the brass pendulum are in very good order. The clock is fitted with a "Strike-Silent" lever. The case retains it's original French-polished finish with a deep plum-mahogany colour, and rich patina. Offered at a very realistic price and considerably less than many similar clocks on the market.
