Description

An absolutely gorgeous golden oak wall clock that would grace any room in the house. This is a thoroughly original clock in every respect and a pleasure to offer for sale. The Winterhalder & Hoffmeire movement has just been fully overhauled by our BHI registered staff in our own workshops. W&H movements are of very high quality and universally recognised. The clock strikes on the half-hour and the hour with a beautiful crisp resonating tone. The 12" dial has black Roman numerals and is signed "A BAMBER. PRESTON". He is recorded as working in Preston(lanca) between 1851-1858. The brass pendulum can be seen working through a glazed opening to the lower half of the case. The case retains it's original French-polished finish and has a lovely, deep, rich patina. It has an opening door to the side of the backbox and one to the base also.
