Description

This generously proportioned PAIR OF GEORGIAN STYLE MAHOGANY WING CHAIRS date from circa 1910. They stand on well-carved claw and ball feet at the front and well-swept back supports. The CHAIRS have sprung seats with loose feather cushions. They were reupholstered about 30 years ago. There are signs of use and wear to the covers as would be expected. It is a matter of taste as to whether to recover or not. The seats are firm and the chairs are comfortable.
