Description

A good quality, impressive and large mahogany SIDBOARD in excellent condition. Probably from the late Victorian period (though there are earlier elements) this sideboard features a well-figured serpentine-shaped top, below which there are two deep concave fronted drawers which flank the larger central bow-fronted drawer. These all feature applied mouldings with re-entrant corners, whilst to the centre is a pretty shaped 'apron' with an oval carved patera to the centre. Between the drawers and to each end are reeded columns, also applied with carved oval paterae and these lead to six turned and reeded legs which terminate in "toupee" feet. Dimensions: 6ft 6ins wide (198 cmd)
