19th CENTURY SCOTTISH HANGING PINE GUN RACK

Price

Sold**Item Reference: SA301765****Date of manufacture: 1860**

Description

Here we have a very nice and unusual mid 19th century dovetailed pine hanging gun rack. Nice shaping to the ends, tongue and grooved back boards and all three of the original brass hanging plates. Made for four guns. Somebody has at one time in the distant past put shelves in it but this doesn't show too much. The piece is a lovely golden rich pine colour. SIZE; 28" wide, 37" high and 11" from front to back at the base.
