Antique 1910 Omega pocket watch & chain

Price

Sold**Item Reference: SA305277****Date of manufacture: 1910**

Description

An antique Omega pocket watch originally retailed by J B Yabsley of Ludgate Hill, London (watch and clockmaker, and jeweller). The Omega movement is stem-winding and it is ticking away nicely and the time keeping is good to within around one minute over 24 hours. The movement is protected by an inner hinged cover. The watch measures 49mm diameter excluding the winding stem and the loop. The nickel case has some light marks and some gentle unevenness to the hinged case back but overall the condition is very acceptable for a watch from the 1910s. The inside of the outer back cover has the Omega mark and the serial number 3,415,183 which dates it back to around 1910. The watch glass has some reasonably light marks across it, but is very acceptable. The enamel dial is signed J B Yabsley, London, Swiss Made. There are some hairline cracks, mainly towards the edge of the dial. Rose gold coloured hands and sub seconds hand. The watch comes with a white metal albert or chain with an 1846 Hungarian coin and a 7-thread tassel.
