

SA310536

Antique Victorian Mahogany Doctors Examination Couch - REDUCED BY £1000

Price

Sold**Item Reference: SA310536****Date of manufacture: 1900**

Description

This amazing piece came out of a medical practice in the West End of London & was in a very tatty condition when I helped carry it out. The old faux leather upholstery was badly torn & the webbing was broken. Basically, this piece has been restored, polished & re-upholstered. I believe it was made to be used as an examination couch, with all the medical equipment to be stored in the drawers & compartments below. This couch is antique Victorian & mahogany. It has a very useful ratchet system, which enables one to recline at different heights or lay completely flat. It has boldly turned legs & a polished back. This piece could easily be used for it's original purpose or would make a fantastic prop in a doctors surgery or to be used in the home. This item was also made in London (see label). Please enlarge all the images to really appreciate all the details & functions of this piece. Width - 73", 185 cm Depth - 25", 63 cm Height - 33.5", 85 cm
