

SA312751

Antique .800 silver stem winding pocket watch

Price

Sold**Item Reference: SA312751****Date of manufacture: 1900**

Description

Antique .800 silver stem winding pocket watch. The watch has a jewelled stem-winding movement which is ticking away and the time keeping is good to around 2 - 3 minutes over 24 hours. The movement is protected by an inner cover which has details of the movement engraved upon it and a previous owner has scratched their initials into it. The watch measures 50.2 mm diameter excluding the winding crown and the loop. There are areas of unevenness and wear but overall the condition is acceptable for a piece from the early 1900s. The watch lens is glass and is in nice condition with only the odd minor mark. The dial is enamel and it has some hairline cracks radiating from the centre. Original blued steel hands (pin set), subsidiary seconds dial and an outer minute track with numbers. FREE WORLDWIDE SHIPPING
