Description

A gents 1940s 9 carat gold Longines wrist watch. The watch has a hand-winding movement which is signed Longines, Swiss Made, 15 Jewels, and it has the serial number 6,943,684 which dates it back to 1945. The watch measures 30mm wide excluding the winding crown and 30mm high excluding the fixed lugs - it would probably be best suited to a gent with a slimmer wrist. The case is 9 carat gold and there are hallmarks inside the case back for Birmingham 1945, with a maker's mark of ALD for the prolific English watch case maker A L Dennison. The case has a small 'ding' to the bezel but otherwise it is in lovely condition for a 1930s piece. The lens is in lovely condition. The watch has an enamel dial, signed Longines, Swiss Made. There is a hairline crack but it is not too noticeable to the naked eye. Blued steel hands, subsidiary seconds dial and an outer minute track. A new brown leather strap has been fitted.
