

SA321695

Antique open faced pocket watch

Price

Sold**Item Reference: SA321695****Date of manufacture: 1920**

Description

An early 20th Century open faced pocket watch. The watch has a Swiss stem-winding movement, with 17 jewels, which is ticking away nicely and the time keeping is good to within around two minutes over 24 hours. The movement is protected by an inner dust cover which has some scratches. The watch measures 50mm diameter excluding the winding crown and the loop. The case is gold-filled and was made by the American Watch Case Company, based in Canada. The case has some surface marks and a little unevenness. The watch glass is in good order with just a few minor marks. The white enamel dial looks good; if you look closely, there is a faint hairline crack running across the dial. Blued steel hands, subsidiary seconds dial and an outer minute track.
