Date of manufacture: 1950

Description

A gents 1950s Recta wrist watch, with Art Deco influence. The watch has a Swiss hand-winding movement, signed Recta, which is ticking away nicely and the time keeping is good to within around two to three minutes over 24 hours. The watch measures 25mm wide excluding the winding crown and 25mm high excluding the unusual double lugs. The case has some marks although is respectable for its age. The case back has the mark for the British Watch Case company. The exaggerated curve on the lens is a very handsome feature of this watch, and it gives the dial a most attractive curved appearance. The lens is in good condition with just light surface marks. A new black leather strap has been fitted.
