Description

A vintage 1950s gents Ingersoll wrist watch. The watch has a hand-winding movement which is ticking away nicely and the time keeping is good to within around 2 - 3 minutes over a 24 hour period. The watch measures 33.8 mm diameter excluding the winding crown and 42.4 mm high including the lugs. The gold plated case has light surface marks from use and light wear to the edges but overall it is in nice condition for its age. The case back is stamped with the Ingersoll logo and stainless steel back, 10 microns gold plated, water dust shock protected although with any vintage watch I would not rely on it being water protected. The lens is in nice condition. The dial is signed Ingersoll, 5 jewels, shock protected with Made in Great Britain at the bottom. The textured dial is in nice condition with only the odd minor mark. The watch has its original hands. The watch has a new black leather strap. PRICE INCLUDES WORLDWIDE POSTAGE
