Extremely rare 6Ft stunning
super king size early Winfield all
brass bed

Price

Sold

Item Reference: SA325178

Date of manufacture: 1860

Description

This is indeed a thing of beauty. Extremely rare super king size early Winfield all brass bedstead c 1860, with taper tube posts and elaborate cast panels depicting nesting birds, foliage and flowers. All the fine cast detail is further enhanced by a process known as chasing. This was literally done by hand using tiny chisels to create the detailed markings. The brass cast joints have classic fleurs de lys detail. The castors are porcelain with brass carriers. Makers plate on cross iron. This bed is in beautiful original condition. We have sympathetically cleaned the brass to maintain the natural patina. (If you would like the bed highly polished and lacquered please enquire re costings.) Most of these high quality Winfield beds were exported as wedding gifts and found their way to far flung South America and Africa. The bed is suitable for a standard super king size mattress 6' x 6'6" (180 cms x 200 cms) Price includes 2" deep platform top mini box base (sorry not mattress) We can supply hand made mattresses at this size if needed; please email for specifications and prices. National and international deliveries can be arranged. Please send postcode for quotation. ...
