

SA326625

Antique English Glass & Silver Plate Ice Bucket by John Grinsell c.1900

Price

Sold**Item Reference: SA326625****Date of manufacture: 1900**

Description

A fabulous and most unusual ice bucket by a top-notch silversmith, John Grinsell. The glass has a ripple effect running through it with strawberry cut panels, creating alternative ripple and cut glass panels all the way around. The swing handle and rim are made from silverplate with the makers mark on one bracket to the side. The bucket retains it's original drainer fitting neatly into the bottom of the bucket, keeping the ice dry from melted water. Dating to around 1900, late Victorian or Edwardian in era, this gem remains in excellent condition. The rim diameter measures 5 1/2", standing 6 1/4" tall or 10 1/2" to top of handle when held.
