Description

A large gents 1917 WW1 silver trench watch. The watch has a Swiss hand-winding movement which is ticking away nicely and the time keeping is good to within around two to three minutes over 24 hours. The jewelled movement is unsigned. The watch measures 36 mm diameter excluding the winding crown and the fixed wire lugs. The case is sterling silver and there are import marks inside the case back for London 1917, with the importers mark GS (George Stockwell). The case has light surface marking to the front and some denting to the back but overall the condition is good for a WW1 piece. The watch lens is glass and is in nice condition with only the odd minor mark. The watch has an enamel dial which is in nice condition with only the odd minor mark. The watch has its original blued steel hands (some of the infill is missing on the hands). The watch has a vintage brown leather strap possibly original.
