Description

Antique 1908 Omega pocket watch. The watch has a stem-winding Omega movement which is ticking away and the time keeping is good to around 2 - 3 minutes over 24 hours. The watch measures 47.2 mm diameter excluding the winding crown and the loop. The gun metal case is signed Omega and has the serial number 3386863 which dates the watch to 1908. The case has light surface marking and pitting from use and a dent to the back but overall it is in nice condition for its age. The watch lens is glass and is in nice condition. The dial has faint hairline cracks and an old repair between 7 & 8 o'clock but otherwise it is in nice condition. The watch has its original hands.
