Description

A superb quality French Brass and etched glass lantern. This lovely light has 6 flat etched glass panels and another at the bottom, there are all cut with a starburst and gives a sensational bright light when lit. The brass work is in the regency style and workmanship of the piece is superb, it is heavy and fine quality. The light is in working condition and looks dazzling when alight, but as with all old electrical pieces we strongly recommend having it rewired by a professional electrician. The Lantern is 10" across and 23" high. LF196 We Give Free Delivery to Mainland England & Wales, to see all of our current stock please visit our web site at www.elmgarden.co.uk.
