Description

Dating from between 1910-1940 a matching pair of chandeliers with decorative brass frames and all the original drops - we are happy to sell them individually. The chandeliers measure 50cm from the top of the decorative frame to the very bottom of the drops at the base, and they are approximately 25cm wide. They have a single light in the centre and both come with approximately 31cm of chain and a dark brass ceiling hook. There are three tiers of glass drops under the central band and we replaced many of the brass pins that were broken to secure the drops in position. The brass frame of one light is fractionally darker than the other but this is only apparent when hanging side by side. Postage and packing within the UK mainland only is included in the price and for remote areas or abroad please contact us for a delivery quote. If only one light is required, the price each including p&p within the UK mainland is £385.00.
