Description

This is a superb example of a gents classic wristwatch made by the world renowned maker Universal. This is the extremely rare Golden Shadow model. It has a solid 18ct yellow gold case and this is complimented by the original silver textured or linen dial which is in mint condition and peacock blue steel hands. It has the thinnest fully automatic movement ever made until 2003 being only 2.5mm thick - the legendary 25 jewel calibre 66 and it is just superb. As you would expect from Universal the watch is fully marked on the dial and case. This is exceptional and looks as though it has been kept in a box its whole life and never worn, a rare find indeed and a superb super slim dress watch. Universal are one of the most exclusive makers and this watch certainly has that understated elegance which resonates class. The watch case measures 35mm in diameter not including the crown. The watch has just been fully serviced and is guaranteed to be a genuine Universal in all respects. This watch has been fully and professionally overhauled, the process is highly detailed and meticulous. The watch is stripped down to its component parts and each part is examined under a micros...
