Description

A 1940s Omega wrist watch. The watch has a 30T2 SC hand-winding movement which is ticking away happily and the time keeping is good to within around one to two minutes or so over 24 hours. The movement is signed Omega, Swiss, 16 Jewels, and it has the serial number 10,510,699 which dates it back to 1945/46. The watch measures 32mm diameter excluding the winding crown and the lugs. The case is stainless steel and the condition is very nice for such an early piece. The inside of the case back has the Omega triangular stamp together with the case reference 2220/4 which is correct for the calibre 30T2 SC. The lens is in lovely condition. It appears to have been re-finished a while ago; there are some fairly light marks but overall it is very acceptable for such an early piece. Feuille shaped hands and a black centre seconds hand. A new black leather strap has been fitted. PRICE INCLUDES WORLDWIDE POSTAGE
