Description

A gents 1950s Ingersoll wrist watch, made in Great Britain. The watch has a hand-winding movement which is working nicely and the time keeping is good to within around two minutes over 24 hours. The watch measures 32.5mm diameter excluding the winding crown and the lugs. The case has a pale gold tone finish; there is a little rubbing and some marking but overall the condition is fine for a 1950s piece. The lens is in good order. The signed dial has plenty of vintage character and it is in good condition too. A later black leather strap has been fitted. The watch comes in a vintage Ingersoll box, probably the original; there is staining and marking to the inside but it is still nice to have. PRICE INCLUDES WORLDWIDE POSTAGE
