Description

An antique Omega pocket watch. The watch has a stem-winding movement which is working nicely and the time keeping is good to within around two minutes over 24 hours. The movement is signed Omega and it has the serial number 4,294,667 which dates it back to around 1912/1913. The watch measures 51mm diameter excluding the winding stem and the loop. The case is 800 silver with rose gold wash detail around the bezel and outer edge of the case back although a lot of the detail has worn off from handling and use over the years. The detail on the case back has also worn with time, and there is some unevenness. The plastic lens is in good condition. The white enamel dial is signed with the Omega name and logo. There is damage to the dial, mainly around the edges. PRICE INCLUDES WORLDWIDE POSTAGE
