

SA341110**FINE PAIR OF EARLY FRENCH
BRASS CANDLESTICKS. C.
1820**

Price

Sold**Item Reference: SA341110****Date of manufacture: 1800**

Description

FINE pair of large size early 19th century very decorative French brass candlesticks. The round spun bases with very nice engraved decoration. The cast stems also with beautiful engraved decoration in various places. I think the scones may have been reduced slightly in height as there is evidence of the remains of the hole for removing candle stub. Other than that these are in pretty good condition for age. SIZE; 5" diameter base. 10 1/2" high Part of a large private collection of early brass candlesticks recently purchased. More to come shortly.
